

AUDREY MICHNIAK, CESCL

Project Biologist I

Audrey has 4 years of experience working on a mix of environmental and engineering consulting projects in support of land development projects, corporate real estate portfolios, and industrial facilities within the Puget Sound region. She has performed wetland delineations; stream and nearshore surveys; fish exclusion; research and synthesis; mitigation monitoring; GIS analysis; and soil, groundwater, soil vapor, and outdoor air quality sampling. Audrey is familiar with local, state, and federal environmental policies and regulations, and she routinely conducts regulatory research and prepares documentation to meet local (e.g., critical areas), state (e.g., State Environmental Policy Act [SEPA]), and federal (e.g., Endangered Species Act [ESA]) regulatory requirements. Her experience includes projects based in Washington and Oregon.

Representative Projects

North Totten Inlet Mussel Farm, Taylor Shellfish Farms, South Puget Sound, WA. *Project Biologist I.* Confluence is conducting baseline and post-harvest sediment surveys for this floating mussel aquaculture facility to ensure compliance with the Washington Department of Natural Resources lease. Audrey assisted with preparing field equipment, writing the 2022 Monitoring Sampling Report, and creating GIS figures.

State Route 16 Park-and-Ride Design, Kitsap Transit, Port Orchard, WA. *Project Biologist I.* Confluence is providing environmental documentation to support NEPA/SEPA and ESA compliance and permitting for this park-and-ride development. Audrey is assisting with the critical areas assessment fieldwork, report writing, and GIS figure creation.

1609 Fairview Avenue E, Alexandria Real Estate Equities, Inc., Seattle, WA. *Environmental Consultant 2.* Audrey assisted in the field inspection and writing of the Phase I report for this property.

Washington State Department of Transportation (WSDOT) Site Support, Skokomish Indian Tribe, Skokomish, WA. *Environmental Consultant 2.* Audrey provided technical support to the Skokomish Tribe on characterization, remediation, and redevelopment of a former WSDOT site and fee-to-trust conversion of the property with the Bureau of Indian Affairs. She also provided support with cost recovery under collaborative (non-litigation) arrangement between the Skokomish Tribe and WSDOT, former owner/operator of the site.

Stack Assemblage, Prologis, L.P., Seattle, WA. *Environmental Consultant 2.* Audrey assisted in the field inspection and writing of the Phase I report for this property located in south Seattle.

NERT Remedial Investigation, LePetomane, Inc., Henderson, NV. *Environmental Consultant 2.* Audrey performed ongoing remedial investigations, including Remedial Investigation Planning / Strategy and Remedial Investigation Implementation.

EDUCATION

B.S., Geology and Environmental Science,
Western Michigan University, 2015
Certificate in Wetland Science and
Management, University of Washington,
2018

EXPERTISE

Wetland Ecology and Delineation
Plant Identification
Critical Areas Studies
Mitigation Monitoring
Fish Exclusion
Data Collection and Analysis
GIS

CERTIFICATIONS

HAZWOPER, 40-Hour Certificate, Argus
Pacific, Inc., Training Center, Seattle, 2018
Certified Erosion and Sediment Control Lead,
Northwest Environmental Training Center,
May 2022
Open Water Diver, NAUI, 2015
How to Determine the Ordinary High Water
Mark Training, Washington State
Department of Ecology, 2019
ICC Washington UST Site Assessor, 2020 –
2022
Washington State Boaters License, 2019

1501 33rd Avenue East, Pilot Travel Centers LLC, White & Case LLP, Fife, WA. *Environmental Consultant 2.* Audrey helped to provide data analysis and GIS support regarding previous remediation actions related to the "Flying J Travel Plaza" property.

Wetland Delineation for New Property Development, Pacific Raceways, Kent, WA. *Environmental Consultant 2.* Audrey assisted in a wetland delineation and documentation to support permitting parcel development.

Consulting Assistance for Wastewater Flow Management and Reduction Goals, Catalent Indiana, LLC, West Valley City, UT. *Environmental Consultant 2.* Audrey assisted this pharmaceutical company with negotiations on water discharge volume limitations with the local sewer utility and with water conservation evaluations.
